Re Survey and Mathematical Instruments

I have the honour to state that some five firms in and outside Mysore were requested to quote their rates for mathematical and Surveying Instruments and out of them only two responded and a comparative statement is enclosed for kind reference But the Engineering College Co-operative Society Ltd , have not quoted for all items and they have remarked that the rates for the remaining items will be intimated after they receive stock of them From the comparative statement it is seen that the rates of the Engineering College Co-operative Society Ltd , are favourable for items quoted by them and therefore they have been taken for arriving at the cost For the remaining items the rates quoted by Messrs Indo Foreign Stationery stores have been taken into account for working out the total cost

A statement of all the Mathematical and Surveying instruments required for the Trust Board has been prepared and the estimated total cost comes to Rs 2,843-2-0

The above figure represents the cost as per quotations now received and if on further enquiry the cost of any of the articles is found to be less, the article or articles of only less cost will be purchased.

As Surveying operations have to be commenced and as these have been held up for want of these instruments I request that very early sanction of Government may kindly be obtained and communicated to the purchase of the above articles at a cost not exceeding the sum of Rs.2,850/- approximately

The cost on this account will be debited to the grant of Rs 5,00,000/- under "30 Grants for Public Improvements-11 Bangalore City Improvement Trust Board
